

AOA-PAC Needs You! Today!

AOA-PAC fights and wins for Optometry. It is the only political action committee working to elect and re-elect pro-optometry candidates to the U.S. Senate and House of Representatives, allowing us to support the lawmakers who support us.

Organized medicine and ophthalmology, insurers and vision plans and Internet contact lens mass retailers relentlessly and repeatedly attack our small profession on Capitol Hill, and aggressively back efforts to turn back the clock on our wins and gain control over how we practice. Although we cannot hope to match these groups dollar for dollar in the political arena, we can continue to out-think them and out-work them, and keep our seat at the table whenever and wherever health care policy decisions are made.

By investing in AOA-PAC, doctors and students are helping to safeguard the Harkin Law as well as our hard-won recognition as physicians in Medicare, our independence and our expanding role in health care. AOA-PAC is helping to educate and inform our friends in Congress about false claims being made by companies offering online vision tests and the dangerous tactics of unscrupulous Internet contact lens sellers.

By making your voluntary contribution today, you are taking an important stand for our profession and joining the ranks of Optometry's advocacy leaders.
